

The Invisible Future: The Seamless Integration of Technology Into Everyday Life, 2002, 348 pages, Peter J. Denning, 0071382240, 9780071382243, McGraw-Hill, 2002

Today's leading visionaries discuss the future of information technology. How will E-commerce and E-consumers interact in 2020? What will the relationship between man and machine, man and information, and information and machine mean for future generations? "The Invisible Future" assembles an elite group of 17 business and academic leaders to answer these and many other fascinating, strategically critical questions. The original essays they provide are as provocative and as powerful as the topics they discuss. This wide-ranging collection offers tactical insights into the future of technology and computing. Essential reading for executives engaged in strategic planning, and anyone interested in the future of technology, "The Invisible Future" includes never-before published essays by: Rodney Brooks John Seely Brown Rita Colwell Michael Dertouzos Alan Kay Ray Kurzweil Bob Metcalfe And more
